## Part A: General Information:

The reduced fee for annual renewal of each commercial fishing permit is available to qualified low-income applicants. Income, for the purposes of qualifying for the reduced fee, includes all income reported as gross income on the tax return. Eligibility for the reduced fee is based upon the permit holder's total family income, assets and other resources as defined by federal food stamp guidelines. The guideline table below shows the total family income limits for this year. If you are currently receiving food stamps or public assistance you automatically qualify for the reduced fee. A dependent minor's eligibility for the reduced fee is based upon total family income and assets.

## Part B: Instructions:

Please read this entire application carefully to see if you qualify. If you think you qualify for the reduced fee, complete this form and send it in with the renewal form. **You must either send a complete copy of your 2010 OR 2011 income tax return (including all schedules) or documents showing you are currently receiving Food Stamps, or are on Public Assistance.** Reduced fees for adults and minor dependents are based on total family income, and all family members income tax returns must be submitted. If you are not sure if you qualify, send in the entire amount due. If you qualify for the reduced fee, a refund will be issued.
