## Research

Our Research section, in collaboration with our Information Technology section, produces basic economic data on Alaska's fisheries. Research produces both standard and specialized reports which have been used to help address a wide range of policy questions, monitor trends in Alaska's fisheries, evaluate the need for access controls in particular fisheries, and to provide other agencies and users with needed data and analyses.

## Adjudications

Our Adjudications section evaluates, classifies, and adjudicates applications for limited entry permits. Adjudication functions are performed by two paralegals, three hearing officers and the Commissioners. The paralegals evaluate entry permit applications and make the initial determination on accepting, denying and classifying them.
