

Free-Sloan, Nancy and Cathy Tide. 2008. "2007 Distribution of CFEC Permits and Vessel Licenses by State," CFEC Report 08-2N

Abstract:

This report contains counts of Alaska Commercial Fisheries Entry Commission (CFEC) permit holders and vessel owners by state of the permit holder or vessel owner. As of year-end 2007, CFEC permits were held by persons from every state except West Virginia and the District of Columbia. During 2007, vessel licenses were issued to vessel owners from forty U.S. states. Data show that the vast majority of permit holders and vessel owners are from Alaska.
